

## **Beijing Polytechnic College(BPC)**

# **2024“Chinese +TVET”International Students Admission**

---

### **1.International Students Admission**

In order to further promote Chinese culture, enhance the understanding of Chinese language and culture among people around the world, and share the concept of Chinese vocational education, Beijing Polytechnic College (BPC) has combined vocational skills education and Chinese language teaching, and launched short-term "Chinese+TEVT" program for international students. BPC will offer systematic Chinese language courses and characteristic vocational courses with the purpose of realizing the dream of career development for International students.

The "Chinese+TVET" program requires international students to study full-time, and generally requires all the students stay in the campus dormitory area. The study period is six months or one year. Those who meet the conditions will be awarded a certificate of completion. Those who have performed well during their studies can be given priority to applying for major study (associate degree) and receive the opportunity to apply for scholarships.

### **2.Entry Requirements**

1. The applicants must be non-Chinese citizens with good moral character, upright conduct, no criminal record, and with full compliance with Chinese laws and regulations and school rules and regulations, and respect for Chinese social morality and customs.
2. The applicants must be in good health, aged between 18 and 35 years old, holding a valid foreign ordinary passport.
3. Applicants should have Proof of high school diploma or equivalent educational

background.

### 3. How to apply?

1	《Beijing Polytechnic College International Student Application Form》
2	Copy of Passport Personal Information Page
3	Copy of High School Diploma
4	Copy of High School Academic Transcript
5	Copy of Physical Examination Chart
6	Copy of Certificate of No Criminal Record

### 4.Fees

Item	Expense Standard	Payer
Tuition Fee	16000 RMB per academic year	At your own expense
Accommodation Fee	8000 RMB per academic year	At your own expense

## Courses of the "Chinese+TVET" Program for International Students

Chinese language courses		Vocational Courses	
Chinese Culture Profile	Pinyin	Electronic Product Design and Production	Animation production technology
Chinese Comprehensive	Chinese Listening	IT practice	Jewelry Design and Production
Chinese Reading & Writing	Chinese Speaking	Architectural Modeling Technology	Overview and Flight of Drones
Chinese Vocabulary	Chinese Grammar	New Energy Vehicle Decryption	Robot Design and Motion Simulation
HSK Simulation	Appreciation of Ancient Chinese Poetry	Beijing Tourism Guide - The Forbidden City	Chinese Intangible Cultural Heritage Experience Course

### About BPC

Beijing Polytechnic College is located in Shijingshan District, the western part of Beijing. On the southern foot of Yanshan Mountain and adjacent to Yongding River, BPC has a land area of 360 mu (24.012 hectares) with a floorage of more than 200,000 square meters. Under the administration of Beijing municipal government, BPC is the most powerful and influential regular higher vocational college nationwide.

First established in 1956 as Beijing Coal Industry School, BPC began to offer higher vocational education programs in 1994. In 2002, BPC was accredited by the Ministry of Finance and the Ministry of Education as an exemplary vocational school covered by the key construction project under the support of the central finance. In 2003, BPC was chosen as one of the top eight excellent colleges in the evaluation of talents cultivation work in higher vocational and specialized colleges organized by the Ministry of Education. In 2007, BPC was included in the Construction Plan of National Exemplary Higher Vocational Colleges, therefore becoming one of the 100 key higher vocational colleges under the support of national government. At the same year, BPC was approved to initiate the project named "the Construction Plan of

National Exemplary Higher Vocational Colleges”. In 2010, BPC passed the evaluation on the project named "the Construction Plan of National Exemplary Higher Vocational Colleges” with excellent performance. In 2012, BPC was recognized as one of the top 50 colleges in China for the employment of graduates. In 2015, BPC was designated by Beijing Municipality as one of the three pilot higher vocational colleges to offer High-end Technological Capabilities Training program (HTC, also named as 7-Year Training Plan). In 2016, BPC played a leading role in setting up the Urban Construction and Management Vocational Education Group, the first of its kind in Beijing. In 2017, BPC won the first place in the numbers of prizes awarded in Teachers’ Information-based Classroom Teaching Competition. BPC also topped the list in the numbers of prizes received in skills competition of the national vocational students. In 2018, BPC entered into Top 50 Vocational and Technical Colleges in Asia Pacific regions and obtained the enrollment qualification of international students. In August of the same year, BPC was officially approved for the recruitment of international students. In 2019, BPC became a construction unit of "characteristic high-level vocational colleges" in Beijing, and in 2019, it was successfully selected as a construction unit of Chinese characteristic high-level vocational schools. In 2021, the first Center for International Education on “Chinese+TVET”.BPC for vocational was established. In 2022, BPC and Tibet Everest Argentina Lithium Potassium Co., Ltd. have jointly applied for the "Lithium Potassium Co., Ltd. Chinese Workshop" project, which has been officially approved by the Center for Language Education and Cooperation and has been selected as one of the first batch of Chinese Workshop projects approved by the Center for Language Education and Cooperation.

Beijing Polytechnic College provides training in eight fields, namely manufacturing, electronic information, civil engineering, resource development and surveying, security, finance, law, and humanities education. Through many years of hard work, BPC has become an institution with a unique professional training system primarily focusing on engineering education but also offering strengths in industry and trade, economics, management, and humanities and legal education, to help meet Beijing’s urgent need for construction and urban planning expertise.

Throughout this growth process, BPC has been committed to the concept of “interaction between colleges and enterprises, combination of industry and education, integration of knowledge learning and skills training” with advanced and high quality courses. In so doing, Beijing Polytechnic College has applied the personnel training mode of integrating industry and learning through programs, such as “continuously carrying out engineering practice;” “effectively recognized academic certificate and qualification certificate;” “cultivating students under real projects;” and “leading towards the overall construction process”, thereby reforming its teaching mode accordingly. Under the national strategy of Beijing-Tianjin-Hebei integration, Beijing will be recognized as the center of political life, culture, technological innovation and international exchange. Moreover, the Belt and Road Initiative, “Internet Plus” and “Made in China 2025” plans have already been put into force. Against this backdrop, Beijing Polytechnic College brings every effort to bear to cultivate engineers capable of meeting the demand of Beijing’s modern industrial development and high-end application technology.

Looking forward, we are committed to building this institution into a superlative, distinguished, higher vocational college offering internationally advanced education.

► BPC has been Selected into the "Recommended List of Vocational Colleges with High Internationalization Level" in Beijing and recommended for the national "Vocational Schools with High Internationalization Level" project(2023);

► BPC and Tibet Everest Argentina Lithium Potassium Co., Ltd. have jointly applied for the "Lithium Potassium Co., Ltd. Chinese Workshop" project, which has been officially approved by the Center for Language Education and Cooperation and has been selected as one of the first batch of Chinese Workshop projects approved by the Center for Language Education and Cooperation(2022);

► The first Center for International Education on “Chinese+TVET”.BPC for vocational was established (2021);

► BPC was successfully selected as a construction unit of Chinese characteristic high-level vocational schools (2019);

► Higher Vocational Development Think Tank made an inventory of National

Teaching Achievement Awards for Higher Vocational Education, Vocational College Teaching Ability Competitions, National Vocational College Skills Competitions, and BPC won the third place in comprehensive ranking, a total of 20 prizes were awarded;

►BPC was listed in Beijing Characteristic High Level Vocational Colleges (2018);

►Urban Operation Intelligent Equipment Application Technology Group and Engineering Survey Technology entered into the list of first batch of Beijing High-level Key majors Construction (2018);

►Huawei Institute of Information and Network Engineers and Jingdong Institute of Intelligent Equipment Engineers were chosen as Beijing Vocational Engineering College and Technical Master Studio (2018);

►BPC won the first place in the 17<sup>th</sup> National College Robot Competition (2018);

►BPC became the National Modern Apprenticeship Pilot Unit (2017);

►BPC was selected as the first batch of Talent Cultivation Base for Belt & Road Initiative Countries together with Tsinghua University and Peking University (2017);

► Majors such as Mechatronics and Numerical Control were chosen into Demonstration Majors of National Vocational College Equipment Manufacturing(2017);

►BPC was the only vocational college that has won the first prizes of National Mathematical Modeling Micro-Course Teaching Competition for two consecutive years(2017-2018);

►BPC ranked first in the number of first prizes that have been awarded in National Vocational College Teacher Informatization Competitions (until 2017);

►BPC won the first place in the number of prizes that has been awarded to students in National Vocational College Skills Competitions (Until 2017);
